

## In other news

August 1, 2013

The New Mexico Small Business Assistance (NMSBA) Program will accept proposals for its 2014 leveraged projects beginning August 20, 2013. The program allows New Mexico small businesses to access the unique expertise and capabilities of Los Alamos and Sandia national laboratories to help solve critical challenges. Leveraged projects enable multiple small businesses that share technical challenges to collectively request assistance for large projects. Please check the [NMSBA website](#) for more information on leveraged projects and the other services the organization provides. Details on how to apply for a 2014 leveraged project will be posted on the website beginning August 20. Deadline for the applications is September 10.
